**PULSE O2DA OPENS REGISTRATION FOR TIER 4 COMBATIVE FIREARMS TRAINING (CFI) CERTIFICATION COURSE JULY 26-27, 2016 AT THE SITE FIREARMS TRAINING CENTER.**

Chicago, IL -- Pulse O2DA Firearms Training, Inc. (Pulse O2DA) today opened the registration process for its July 26-27, 2016 Tier 4 Combative Firearms Training (CFI) certification course to be held at The Site Firearms Training Center in Mt. Carroll Il. Course attendees will have the option of staying on site at the adjacent Black Bear Lodge North.

The Tier 4 CFI program is designed for professional firearms instructors who want to add advanced combative and reality-based training options for individuals, businesses, churches and communities. The most compelling reason for becoming a CFI is the Pulse O2DA training ladder and integrated online defense academy. These two singular features allow the CFI to broaden their reach and generate new streams of revenue and opportunity.

The program works just like the NRA program - candidate instructors pay Pulse O2DA for their training, then are certified to instruct and certify their own students. CFI's can purchase training materials, sales and marketing collaterals, "SWAG" and other training resources from Pulse O2DA, if they desire.

Interested CFI candidates will need to:

1. Review the CFI opportunity briefing at the link below.
2. Submit resume and training bio.
2. Schedule an online briefing and conference call.

The cost of the Tier 4 CFI certification course is \$895. The course consists of 20 hours of on-line study followed by 2-days of on-range certification.

If you would like to be considered for CFI certification then please review the detailed briefing available here:
