## FREE WEBINAR FOR CHURCH OFFICIALS: FIVE IMMEDIATE STEPS TO ENHANCE CHURCH SECURITY

**Chicago IL** -- Pulse O2DA Firearms Training, Inc. (Pulse O2DA) announced today its free webinar for church officials and members titled "Five Immediate Steps To Enhance Church Security" scheduled for Thursday, June 25, 2015 at 12:00 CDT.

The shooting at the historic Emanuel African Methodist Episcopal Church illustrates the need for church officials to further examine the security requirement of their members. This is an issue that crosses all religious, race and cultural lines. No church is exempt from this sort of violence. Pulse O2DA is at the forefront of developing the strategies, tactics and techniques necessary for private citizens to defend churches, schools, and businesses from violent threat.

Bill Tallen, Vice President - Tactical Operations had this to say about the shooting:

"While many will once again argue that stricter gun restriction is necessary because America is a "gun nation" the reality is that too many Americans still decline to take responsibility for their own security in these increasingly troubled times. Terrible events like the shooting in Charleston's Emanuel African Methodist Episcopal Church occur when only those with deranged, criminal intent are armed."

Pulse O2DA is offering a free 2-hour webinar for church officials and members that will present and discuss five immediate steps to enhance church security. These steps can be implemented by small to medium-sized church congregations with a single facility.

In addition to the "five immediate steps" other topics that will be covered include:

- How to do a site survey and vulnerability analysis.
- Options for setting up your own private security force.
- Basic firearms fundamentals for an effective defense.

This is a free webinar for church officials and members. Qualified attendees receive complimentary 14-day access to the O2DA Battle Academy and a free PDF copy of "Strategy for the Defense Of Home, Business and Community".
