FREE WEBINAR: TEN IMMEDIATE ACTIONS YOU CAN TAKE TO DEFEND YOUR BUSINESS, CHURCH OR SCHOOL FROM RANDOM TERRORIST ATTACK

Chicago IL --The best practices, people and technology the world has to offer could not thwart the ISIS attacks in Paris or the most recent terrorist attack in San Bernardino. Nor will these practices, people and technologies thwart the next attack.

Recent events in San Bernardino, Paris, Chattanooga, Garland, Waco, Ferguson, Baltimore, Charleston, Detroit and Chicago demonstrate the inability of traditional law enforcement to maintain security when confronted with these new and evolving threats.

This 2-hour webinar will present ten immediate steps owners, managers and administrators of small and medium-sized organizations can take in order to defend against random terrorist attacks and other violent threats.

The topics that will be discussed in addition to the ten steps include:

1. How to build a private defense network.
2. How to select your defense cadre.
3. How to conduct a vulnerability analysis.
4. How to develop a training plan.
5. How to pay for weapons, ammo and training.
