

# QUICK REACTION TEAMS

Safeguard enterprise personnel, facilities, critical infrastructure, and other valuable assets during periods of crisis.

## CONTRACT SECURITY SERVICES

### Quick Reaction Teams For Enterprise Deployment

Distributed Security, Inc. provides quick reaction teams to safeguard enterprise personnel, facilities, critical infrastructure, and other valuable assets during periods of crisis. Our contract security services deliver **HIGHLY-TRAINED, EX-MILITARY/ AGENCY, ARMED SECURITY CONTRACTORS** for short term deployment.

DSI enterprise clients are guaranteed on-site deployment of a **QUICK REACTION TEAM WITHIN 24 HOURS\*** of request. Our armed security teams work in tandem with your existing security management or can assume responsibility for all of your security operations.

**NOBODY DEPLOYS BETTER-TRAINED OPERATORS THAN DSI.** We keep our team count low, our standards high, and we deeply vet all applicants for experience, judgement, and temperament. We are neither a body shop, nor do we offer uniformed guard services.

Contract security services are retainer-based with mobilization fees paid as utilized. All clients must be on retainer and must have completed our preliminary on-site assessment prior to deploying a team.

We currently have a limited number of teams available for deployment to the upper Midwest. Please call team leaders **RANDY BARTLETT** 228.223.7794 or **LES LESLIE** 605.929.9760 for more information.

*\*It will take 5-7 days to establish the commercial relationship and complete the initial security assessment after which 24-hour deployment windows will be opened.*
